1. Page B-7, lines 18 and 19.

Following: "No less than"

Strike: The remainder of line 18 through line 19.

Insert: "\$375,429 of general fund money and \$215,954 of federal special revenue in fiscal year 1996 and \$758,100 of general fund money and \$433,751 of federal special revenue in fiscal year 1997 must be granted with no specific expense allocation, and the remainder of the rate increase must be allocated to salaries for the lowest-wage, direct-care line workers."

This amendment changes language regarding distribution of provider rate increases for developmental disabilities providers to retain the original intent of the Subcommittee on Human Services and Aging. The subcommittee intended that any amount of rate increase above a 1.5% rate increase would be allocated to raising the wages of the lowest paid direct care workers. Current language in HB 2 is written to coincide with a rate increase of 4% which is the level approved by the subcommittee. House Appropriations reduced the rate increase to 3%, but did not change the language to retain the original intent of the subcommittee.

LFA will amend the totals.

The legislature reduced the SRS budget by 25 FTE and \$412,500 general fund and \$412,500 federal funds in fiscal 1997 in anticipation of passage and approval of SB 345 (reorganization of human services and public health

agencies). This amendment increases savings due to SB 345 by an additional 5 percent of total personal services costs and reallocates the savings to the Department of Family Services for grants to local communities to provide programs for difficult to serve children and to the Department of Health and Environmental Sciences for grants to local public health care. Reductions allocated to SRS increase by 143.94 FTE, \$2,281,166 general fund and \$2,281,166 federal funds in fiscal 1997, based on the average cost of and funding for an FTE included in the fiscal note. The savings are taken from the SRS budget, but language allows the executive branch to allocate the savings among programs in the new Department of Public Health and Human Services. If SB 345 is not passed and approved, the SRS appropriation is increased by the reductions taken in anticipation of passage of SB 345.

Appropriations for personal services in [this act] for each executive branch agency (including those headed by an elected official) and the judiciary in each year of the biennium are reduced by the difference between amounts appropriated, by fund type, for workers' compensation costs and

actual costs based upon rates established by the state mutual compensation fund, as determined by the budget director. The budget director shall submit all documentation of calculations used to determine the difference in workers' compensation costs in each year to the legislative fiscal analyst within 10 days of final calculation."

This amendment reduces appropriations to executive branch agencies by any difference between workers' compensation rates used to derive the personal services budgets and actual rates as determined by the State Fund. All funds reduced would revert to the respective fund source.

Insert: "NEW SECTION. Section 9. Personal services — 1999 biennium. In preparing the governor's 1999 biennium budget, the budget director shall determine an actual vacancy savings rate experienced by each executive branch agency (excluding those agencies headed by an elected official) with 20 FTE or greater and by the Montana university system in fiscal year 1996. This rate must be determined for each agency by dividing total actual personal services expenditures associated with personal services appropriated in line items in House Bill No. 2 by the total appropriated personal services in House Bill No. 2 and in House Bill No. 17 as allocated by the office of budget and program planning for all executive branch agencies and as established in the board of regents' approved operating budgets for the Montana university system. The total present law personal services requested for each agency in the agency program budgets provided for in 17-7-111 and in the governor's 1999 biennium budget must include a reduction in present law FTE in order to reduce total personal services by the equivalent of the vacancy savings rate."

Renumber: subsequent sections

This amendment requires the budget director to reduce the personal services budget request in the 1999 biennium for all executive branch agencies with greater than 20 FTE, excluding elected officials and including the university system, by an amount commensurate with the actual vacancy savings rate experienced in fiscal 1996.

This amendment adds general fund of \$182,144 to the Department of Revenue (DOR) to install computers with access to the state's Computer Assisted Mass Appraisal System (CAMAS) in the counties, and maintain data communication lines between the CAMAS and the counties. The funds are added in two places: a) \$30,472 is added each year to the Property Valuation Division's appropriation to pay ongoing monthly data network fees; and b) \$121,200 is added in fiscal 1996 as a separate restricted biennial appropriation for one-time only computer equipment costs.

The DOR has been working with the counties to accomplish the exchange of valuation information in electronic formats rather than a manual entry process. Currently, the DOR sends valuation information for real property to the counties in a tape format that is loaded to the county computer systems. This process takes place once a year due to the expense and time involved in producing the tapes, and in some counties, additional payments to private vendors.

This amendment would provide the counties and the DOR the mechanism to more frequently exchange, not just real property valuations, but the valuations for all property as often as nightly. This eliminates the need for double entry and ensures a more accurate property tax record for the county.

If House Bill No. 569 is passed and approved in a form that allocates 1.5% of the metalliferous mines license tax receipts to the renewable resource grant and loan program state special revenue account, that allocates 4.6% of the metalliferous mines license tax receipts to the reclamation and development grants program state special revenue account, and that does not change the amount of the statutory appropriation to Montana state university-northern from the renewable resource grant and loan program state special revenue account, then the general fund money in item 3 is reduced by \$342,629 in fiscal year 1996 and by \$301,913 in fiscal year 1997 and the state special revenue in item 3 is increased by like amounts."

The renewable resource grant and loan program account and the reclamation and development grants program account (state special revenue accounts receiving RIT interest and RIGWA tax proceeds) are over-appropriated by more than \$1.7 million for the biennium. This amendment uses \$873,077 of general fund each year to replace state special revenue in the Department of Natural Resources and Conservation (\$749,912 each year) and the Department of State Lands (\$123,165 each year). HB 569 allocates a portion of metal mines tax receipts to these two accounts and increases the amount of statutory appropriations to MSU-Northern from the renewable resource grant and loan program account, which has a net effect of decreasing the over-appropriation by 0.4 million during the biennium. The language reduces the amount of general fund back-fill in the event HB 569 passes.

3. Page E-7, lines 10 through 12.

Strike: lines 10 through 12 in their entirety

This amendment increases total general fund by \$15,500,000 and adds tuition of \$5,611,376 in fiscal 1996 and \$3,252,079 in fiscal 1997 to increase tuition to the executive modified budget level, less: 1) estimated tuition increases of \$3,685,927 in fiscal 1996 and \$4,702,178 in fiscal 1997 for salary and productivity negotiations at all campuses except UM-Missoula; and 2) fiscal year 1997 tuition increases of \$2,687,124 for salary and productivity negotiations at UM-Missoula. It then allows the university system to request budget amendments for tuition up to the total tuition level in the executive modified budget. In addition, this amendment strikes language that would allow the university system to seek a general fund supplemental appropriation if it did not collect tuition in excess of \$141.8 million.

Following: "\$15,000,000 for the biennium,"

Strike: the remainder of line 10 and lines 11 and 12 in their entirety

Insert: "provided that resident undergraduate tuition does not exceed the following average rates:

(1) \$1,726 per resident student FTE at the 4-year units in fiscal year 1996;

(2) \$1,457 per resident student FTE at the colleges of technology in fiscal year 1996;

(3) \$1,817 per resident student FTE at the 4-year units in fiscal year 1997;

(4) \$1,560 per resident student FTE at the colleges of technology in fiscal year 1997.

It is the intent of the legislature that resident graduate tuition not exceed 120% of the resident undergraduate rate. The average rates do not include fees or supertuition. It is the intent of the legislature that fees not change from the fiscal year 1995 levels. Supertuition may be levied on the following majors: law, physical therapy, pharmacy, and nursing. Nonresident tuition rates are not limited.

It is the intent of the legislature that the Montana university system accept resident students in the six units and the colleges of technology based on a state expenditure of an average of at least \$4,040 per resident student FTE for each year of the biennium, if qualified students apply. Of the total number of student FTE, the legislature intends that at least 78% be qualified Montana residents and up to 22% be qualified nonresident students."

This amendment details legislative intent concerning tuition rates, state funding per student and the resulting enrollment cap, and the proportion of residents and non-residents enrolled in the Montana University System.

Since fiscal year 1992, the state expenditure per resident student in the Montana University System has dropped by nearly \$500, while tuition rates have increased by an average of over \$750 per resident student. This amendment addresses that trend, guaranteeing a certain level of state support per FTE resident student and providing a "cap" on the amount of tuition that may be collected from resident students. This amendment does not, however, restrict the amount of revenue the university system can generate from non-resident students. It does restrict the number of non-resident students to 22% of the total FTE, but it does not set a rate for those students.

If the Board of Regents agrees with legislative intent and the state support equals that shown in the second reading-second house (pink) copy of HB2, resident enrollment would be reduced by 2,396 student FTE in fiscal 1996 and 1,863 FTE in fiscal 1997 from the anticipated enrollment. Resident tuition would therefore be reduced by \$4.3 million in fiscal 1996 and \$3.5 million in fiscal 1997.

Insert: "Replacement of Primary Electrical Distribution System
MSU-Billings"

"1,487,500"(LRBP) "262,500 Auxiliary"

The purpose of this amendment is to provide funding and authorization for the replacement of an electrical distribution system that is currently in violation of national electrical codes. As it exists, the system poses an imminent safety hazard to MSU employees. The current distribution system is unreliable and on the verge of complete failure, which would result in loss of electrical power and heating for the entire campus. This is the next maintenance project on the Board of Regents' priority list.

1. Page 1, line 29.

Strike: "\$12,559,240"

Explanation

This amendment increases the bonded authority for the Capitol restoration to the Governor's original recommendation. An additional \$1.1 million would need to be raised from individuals and private sources. These funds will repair the scagliola columns, provide for historical restoration, and help ensure the recovery of historic Capitol items in Nevada City.

income tax collected is in excess of the amount due or that any penalty or interest was erroneously or illegally collected, the amount of the overpayment must be credited against any income tax, penalty, or interest then due from the taxpayer and the balance of the excess must be refunded to the taxpayer.

(2) (a) A credit or refund under the provisions of this section may be allowed only if, prior to the expiration of the period provided by 15-30-146 and 15-30-147, the taxpayer files a claim or the department determines there has been an overpayment.

If the claim is disallowed, the department shall notify the taxpayer and a review of the determination of the department may be pursued as provided in 15-1-211.

(4) Interest is allowed on overpayments at the same rate as charged on delinquent taxes. Interest is payable from the due date of the return or from the date of the overpayment, whichever date is later, to the date the department approves refunding or crediting of the overpayment. With respect to tax paid by withholding or by estimate, the date of overpayment is the date on which the return for the taxable year was due. Interest does not accrue on an overpayment if the taxpayer elects to have it applied to the taxpayer's estimated tax for the succeeding taxable year. Interest does not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment. Interest is not allowed if:

- (a) the overpayment is refunded within ~~6 months~~ 45 days from the date the return is due or the date the return is filed, whichever date is later;
- (b) the overpayment results from the carryback of a net operating loss; or
- (c) the amount of interest is less than \$1.

(5) An overpayment not made incident to a bona fide and orderly discharge of an actual income tax liability or one reasonably assumed to be imposed by this law is not considered an overpayment with respect to which interest is allowable."

HB 297 (House - Second Reading - Sixty-Fifth Legislative Day) -

Representative Grady moved HB 297, second reading copy, be amended as follows (amendment #1):

1. Page 3, line 17.

Following: "SECTION"

Strike: "MUST"

Insert: "may"

2. Page 3, line 19.

Following: "BRIDGES."

Strike: "THE" through "EQUIPMENT."

EXPLANATION: Amendment [1] is a technical amendment as the House appropriations committee recommended that the word "must" be replaced by the word "may." This change failed to get enrolled into the bill as amended.

Amendment [2] removes the following language in HB 297 added in the House Appropriations committee: "The funds may not be used to purchase equipment." This language conflicts with the existing Section 15-70-101, MCA subsection (6) which states: "Except by a town or third-class city as provided in subsection (2), the funds authorized by this section may not be used for the purchase of equipment."

Amendment #1 passed as follows:

"15-30-111. Adjusted gross income. (1) Adjusted gross income shall be the taxpayer's federal income tax adjusted gross income as defined in section 62 of the Internal Revenue Code of 1954 or as that section may be labeled or amended and in addition shall include the following:

(a) interest received on obligations of another state or territory or county, municipality, district, or other political subdivision thereof;

(b) refunds received of federal income tax, to the extent the deduction of such tax resulted in a reduction of Montana income tax liability;

(c) that portion of a shareholder's income under subchapter S. of Chapter 1 of the Internal Revenue Code of 1954, that has been reduced by any federal taxes paid by the subchapter S. corporation on the income; ~~and~~

(d) depreciation or amortization taken on a title plant as defined in 33-25-105(15); ~~and~~

(e) a tax credit claimed under [sections 1 through 8] if the credit was based upon any portion of a property tax that was used to reduce Montana income tax liability.

(2) Notwithstanding the provisions of the federal Internal Revenue Code of 1954, as labeled or amended, adjusted gross income does not include the following which are exempt from taxation under this chapter:

(a) all interest income from obligations of the United States government, the state of Montana, county, municipality, district, or other political subdivision thereof;

(b) interest income earned by a taxpayer age 65 or older in a taxable year up to and including \$800 for a taxpayer filing a separate return and \$1,600 for each joint return;

(c) (i) except as provided in subsection (2)(c)(ii), the first \$3,600 of all pension and annuity income received as defined in 15-30-101;

(ii) for pension and annuity income described under subsection (2)(c)(i), as follows:

(A) each taxpayer filing singly, head of household, or married filing separately shall reduce the total amount of the exclusion provided in (2)(c)(i) by \$2 for every \$1 of federal adjusted gross income in excess of \$30,000 as shown on the taxpayer's return;

(B) in the case of married taxpayers filing jointly, if both taxpayers are receiving pension or annuity income or if only one taxpayer is receiving pension or annuity income, the exclusion claimed as provided in subsection (2)(c)(i) must be reduced by \$2 for every \$1 of federal adjusted gross income in excess of \$30,000 as shown on their joint return;

(d) all Montana income tax refunds or tax refund credits;

(e) gain required to be recognized by a liquidating corporation under 15-31-113(1)(a)(ii);

(f) all tips covered by section 3402(k) of the Internal Revenue Code of 1954, as amended and applicable on January 1, 1983, received by persons for

services rendered by them to patrons of premises licensed to provide food, beverage, or lodging;

(g) all benefits received under the workers' compensation laws;

(h) all health insurance premiums paid by an employer for an employee if attributed as income to the employee under federal law; and

(i) all money received because of a settlement agreement or judgment in a lawsuit brought against a manufacturer or distributor of "agent orange" for damages resulting from exposure to "agent orange".

(3) A shareholder of a DISC that is exempt from the corporation license tax under 15-31-102(1)(l) shall include in ~~his~~ the shareholder's adjusted gross income the earnings and profits of the DISC in the same manner as provided by federal law (section 995, Internal Revenue Code) for all periods for which the DISC election is effective.

(4) A taxpayer who, in determining federal adjusted gross income, has reduced his business deductions by an amount for wages and salaries for which a federal tax credit was elected under section 44B of the Internal Revenue Code of 1954 or as that section may be labeled or amended is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

(5) Married taxpayers filing a joint federal return who must include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.

(6) A taxpayer receiving retirement disability benefits who has not attained age 65 by the end of the taxable year and who has retired as permanently and totally disabled may exclude from adjusted gross income up to \$100 per week received as wages or payments in lieu of wages for a period during which the employee is absent from work due to the disability. If the adjusted gross income before this exclusion and before application of the two-earner married couple deduction exceeds \$15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding \$15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, permanently and totally disabled means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months. (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983.)"

"2-7-503. Financial reports and audits of local government entities. (1)

The governing body or managing or executive officer of a local government entity, other than a school district or associated cooperative, shall ensure that a financial report is made every each year. A school district or associated cooperative shall comply with the provisions of 20-9-213. The financial report must cover the preceding fiscal year, be in a form prescribed by the department, and be completed within 4 months of the end of the reporting period. The local government entity shall submit the financial report to the department for review.

(2) The department shall prescribe a uniform reporting system for all local government entities subject to financial reporting requirements, other than school districts. The superintendent of public instruction department of administration shall prescribe the reporting requirements for school districts.

(3) (a) The governing body or managing or executive officer of each local government entity receiving revenues or financial assistance in the period covered by the financial report in excess of \$200,000 or federal financial assistance in excess of \$25,000 shall cause an audit to be made at least every 2 years. The audit must cover the entity's preceding 2 fiscal years. The audit must commence within 9 months from the close of the last fiscal year of the audit period. (b) The governing body or managing or executive officer of a local government entity that does not meet the criteria established in subsection (3)(a) shall at least once every 4 years, if directed by the department, or, in the case of a school district, if directed by the department at the request of the superintendent of public instruction department of administration, cause a financial review, as defined by department rule, to be conducted of the financial statements of the entity for the preceding fiscal year.

(4) An audit conducted in accordance with this part is in lieu of any financial or financial and compliance audit of an individual financial assistance program that a local government is required to conduct under any other state or federal law or regulation. If an audit conducted pursuant to this part provides a state agency with the information that it requires to carry out its responsibilities under state or federal law or regulation, the state agency shall

rely upon and use that information to plan and conduct its own audits or reviews in order to avoid a duplication of effort.

(5) In addition to the audits required by this section, the department may at any time conduct or contract for a special audit or review of the affairs of any local government entity referred to in this part. The special audit or review must, to the extent practicable, build upon audits performed pursuant to this part.

(6) The fee for the special audit or review must be a charge based upon the costs incurred by the department in relation to the special audit or review. The audit fee must be paid by the local government entity to the state treasurer and deposited in the enterprise fund to the credit of the department."

The list must be filed with the department within 6 months after the close of the fiscal year.

(2) At the time that the financial report is filed or, in the case of a school district, when the audit report is filed with the department, the local government entity shall pay to the department a filing fee. The department shall charge a filing fee to any local government entity required to have an audit under 2-7-503, which fee must be based upon the costs incurred by the department in the administration of this part. Notwithstanding the provisions of 20-9-343, the filing fees for school districts required by this section must be paid by the ~~superintendent of public instruction~~ department of administration ~~from the state equalization aid account~~. The department shall adopt the fee schedule by rule based upon the local government entities' revenue amounts.

(3) Copies of the completed audit and financial reports must be made available by the department and the local government entity for public inspection during regular office hours.

The approving authority is responsible for ensuring the implementation of the plan. (1) send the final budget information to the ~~superintendent of public instruction department of administration~~, on the forms provided by the ~~superintendent department~~, on or before September 1;

(2) in the case of the community college districts, send the final budget information to the board of regents, on the forms provided by the community college coordinator, on or before September 1; and

Section 324. Section 20-9-163, MCA, is amended to read:

"20-9-163. Resolution for budget amendment — petition to ~~superintendent of public instruction department of administration~~. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the ~~superintendent of public instruction department of administration~~ to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget

amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The ~~superintendent of public instruction~~ department of administration shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. If the petition is for a budget amendment for an enrollment increase as provided in 20-9-161(1), the ~~superintendent of public instruction~~ department of administration shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the ~~superintendent of public instruction~~ department of administration authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment."

Section 325. Section 20-9-165, MCA, is amended to read:

"20-9-165. Budget amendment limitation, preparation, and adoption procedures. (1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a preliminary budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the preliminary budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) Determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve.

(b) Divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) Determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) Multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the

maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the preliminary budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a preliminary budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the ~~chairman presiding officer~~ of the trustees and the clerk of the district and copies must be sent to the county superintendent, the county treasurer, and the ~~superintendent of public instruction department of administration.~~"

Section 326. Section 20-9-166, MCA, is amended to read:

The ~~superintendent of public instruction department of administration~~ shall adopt rules for the application. The ~~superintendent of public instruction department of administration~~ shall notify the applicant district of the ~~superintendent's department's~~ approval or disapproval and, in the event of approval, the amount of additional state aid that will be made available for the general fund or the transportation fund. Insert: "Section 3. Section 20-2-115, MCA, is amended to read:

"20-2-115. Rules with substantial financial impact — fiscal note — effect without funding. (1) When developing rules, policies, and standards under 20-2-121(6), (7), (9), and (11), the board of public education shall, before adopting the rules, policies, and standards, determine the financial impact of the rule, policy, or standard on school districts.

(2) The superintendent of public instruction shall prepare a fiscal note for submission to the board, using criteria and assumptions developed by the board. The fiscal note must be prepared within 30 days of a request unless the board agrees to a longer time. The board may also accept other testimony and exhibits on the financial impact to school districts before proceeding to rulemaking.

(3) If the financial impact of the proposed rule, policy, or standard that the board wishes to adopt is found by the board to be substantial, the board may not implement the rule until July 1 following the next regular legislative session and shall request the next legislature to fund implementation of, through the BASE funding program, the proposed rule, policy, or standard through the BASE funding program that the board wishes to adopt. The board may not adopt a rule, policy, or standard required to be submitted to the legislature unless the legislature provides funding for it. A substantial financial impact is an amount that cannot be readily absorbed in the budget of an existing school district program.

(4) A proposed rule, policy, or standard not found by the board to have a substantial financial impact on school districts or funded by the legislature may be implemented at any time.

(4) A school district may not have state funding withheld by the superintendent of public instruction if the board of public education or the

superintendent fails to comply with the provisions of this section or if a board rule, policy, or standard having substantial financial impact on a school district is not funded by the legislature."
